

CASHGUARD UNI

CashGuard UNI is a Cash recycler with a compact and cost-efficient design. It enables the customer to insert both coins and banknotes themselves. The system has a 3mm combined coin and note steel cabinet for easy installation and high security.

Full-service access through telescopic slide-mounted inner modules. The compact design makes it easy to fit as a desktop installation. Compatible with all existing Cash Guard POS integrations and Store Manager.

- **Recycling:** All denominations
- **Max deposit speed:** 0,4 banknotes per second and 5 coins per second
- **Max dispense speed:** 5 coins per second and 0,3 notes per second
- **Lock:** Electronic with user traceability.
- **Currencies:** EUR, GBP, SEK, NOK, DKK
