

ALFA FLEXI

Compact vertical multilane stick-pack machines

Pharma solutions

Compact and flexible Stick-Pack machines for powders and liquids

ALFA FLEXI

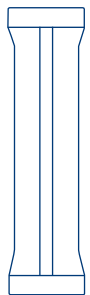

Compact vertical multilane stick-pack machines

Universal Pack's ALFA FLEXI is the new compact and flexible stick-pack machine: perfect for customers who need a versatile and highly efficient machine, it's been designed following the TPM requirements, built for maximum flexibility and fast changeover in a compact footprint. It can be equipped with any dosing system and can accommodate a large range of stick-pack sizes.

Main features

- Modular system to quickly change stick-pack width
- All in one: powders and liquids on the same machine
- Wide range and shapes of stick-packs
- Ergonomic machine accessible on 3 sides
- Simplified film passage
- Extractable doser for easy cleaning and changeover
