

Automatic Filling Line

Watch the machine
in action:

Versatility

Suitable to fill small and medium-sized containers up to a volume of about 5L, our filling lines can satisfy most of the filling needs. Each line can be adapted to the needs of our customers, depending on the type of a production (types of products), a planned capacity and space requirements (size and shape of the production hall).

Technical parameters

Model	Filling head	Filling Accuracy	Air pressure	Output	Filling System	Product	Supply
DMC-FA1H	1	±0.5%	4 - 6 bar	1000 pcs/h	Brushless / lobs pump / peristaltic	Creme, lotion, paste	Air and Electricity
