... ABOUT ANCIENT

EGYPT MANUSCRIPTS

KRANKAMON, PHARAOH OF EGYPT, DREAMED ABOUT HIS PYRAMID, THAT IN HIS INTENT, SHOULD BECOME THE BIGGEST EVER BUILT.

"Phew! What hard work. Is it possible that anybody can think of a better pushing system?"

THE BUILDING PROCESS WAS SLOW BEING HIS RESOURCES LIMITED TO SLAVES AND MATERIAL.

"but why is it such hard work using only one support?"

THE PHARAOH LIVED A SHORT AND HARD LIFE AND THE KRANKAMON PYRAMIDS REMAINED A DREAM.

"There is something illogical in this system. The offset boom unbalances the structure."

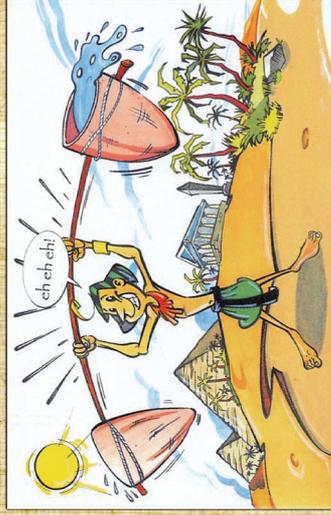

LATER THE PHARAOH DECIDED TO BUILD AN OBELISK WITH HIS IMAGE ON TOP.

"Why is the structure so weak? It cannot carry the weight of my statue!"

PHARAOH CORMSELS, YEARS LATER, DREAMED THE SAME DREAM, OF THE BIGGEST PYRAMID BEING HIS OWN.

"Here is the solution: Cormach system with roller bearing, faster and more efficient."

BEING OLD HE DECIDED TO FINISH KRANKAMON WORK, BUT HE NEEDED SOMETHING TO SPEED THE WORK UP.

"Here is the solution: Cormach system with double mast and double lifting cylinders."

CORMSELS DREAM CAME THROUGH AND HIS PYRAMID WILL STAND FOR EVER.

"Here is the solution: Cormach boom in central position makes the structure more balanced. Excellent."

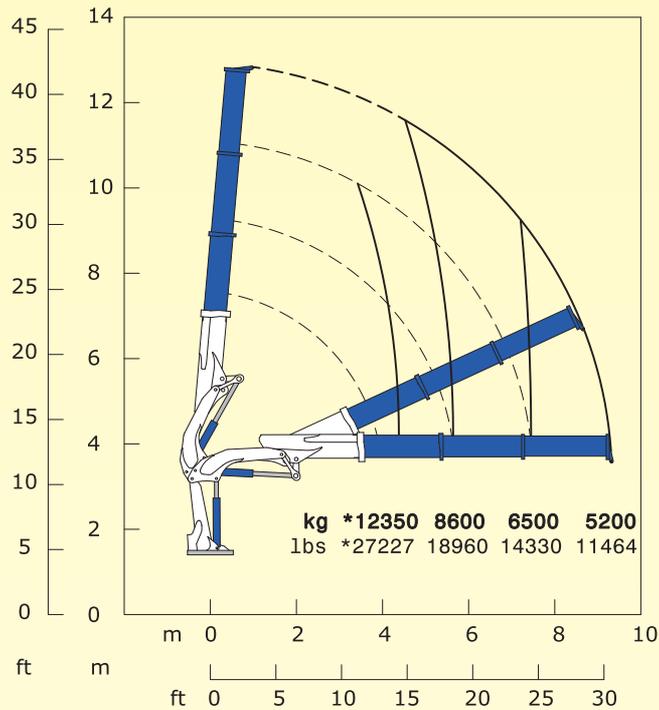

"MANY YEARS LATER CORMSELS BUILT HIS OBELISK WITH HIS STATUE ON TOP ALL THE PEOPLE TO SEE HIS IMAGE FOR YEARS TO COME."

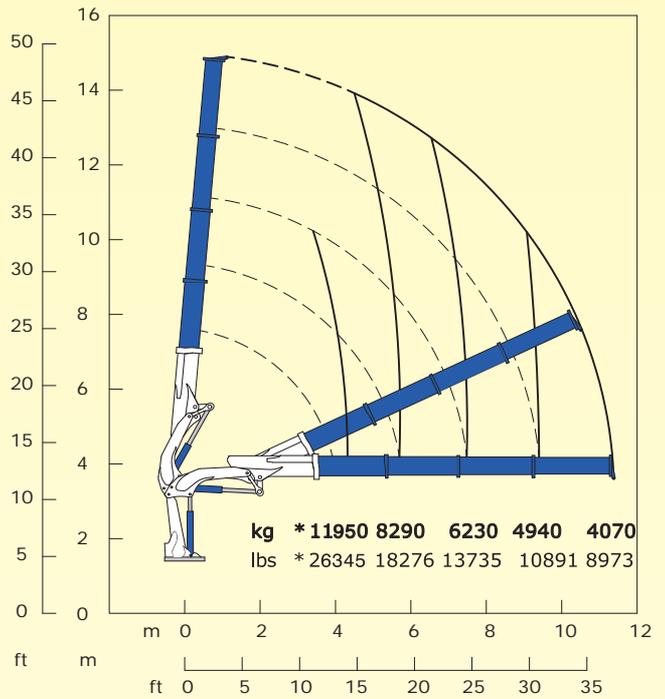

"Amazing! the balanced structure can support a much heavier load!"

END
