

XtraDie Cutting Machines

The machine adopts accurate flatten die-cutting system, material towing controlled by computer, web-guiding by three photoelectric eyes. Die cutting, waste rewinding and finished-material rewinding are finished in one process. It is suitable for die cutting of adhesive paper, label and laser hologram mark. This is the ideal association equipment for the flexo printing machine, silk screen printing machine, gravure printing machine and hologram mark printing machine, and it's the most efficient machine for printing house.

Technical specifications

- Cutting speed: 20-170 t/min.
- Max. unwinding diameter: 500mm
- Max. web width: 320mm
- Max. die-cutting width: 300mm
- Max. die-cutting length: 300mm
- Orientation accuracy: 0,1mm
- Total power: 3,5KW
- Power voltage: 220V
- Machine weight: 1700kg
- Overall dimensions L x W x H: 2,6 x 0,9 x 1,4 m

Specifications subject to change without notice, errors and omissions excepted. - Preliminary Specifications.
