

Zebra RW series printers

Meet the RW Series!

The RW series: rugged enough for the Road Warrior.

With the most feature-rich offering of any mobile printer in the market:

Rugged and Easy to Use Printer

- IP54 certified for resistance to windblown water and dust
- Damage-resistant to multiple drops of up to 6 feet to concrete
- Weight of 1 1/2 to 2 pounds for effortless mobility
- Resistant to extreme hot and cold temperatures

Ergonomically Designed to Fit Comfortably on the Hip

- Single push-button media access for simple re-loading
- Angled LCD for easy viewing of printer status comes standard

Smart and Sophisticated Operation

- Print using the same commands as your Zebra tabletop or desktop printers with common language support.
- Choose the wireless connectivity module that suits your needs: 802.11b/g, Bluetooth, Dual radio support—for using Bluetooth and WLAN in the same printer (RW420 only)
- Quickly and easily print complex labels, symbologies and graphics thanks to the RW series' fast processor and large memory.

Mobile A to Z (from Accessories, to Supplies, to ZebraCare™)

Vehicle Cradles

RW 420 cradle: Intuitive, push-button release cradle for convenient storage and charging of the printer while in a vehicle. Fanfold media can be fed through the base of the cradle to extend the media capacity of the printer.

RW 220 cradle: Grab your printer and go! Store your compact printer conveniently in the vehicle and release it instantly to take to the customer with a push of a lever.

Flexible Ram Mounting kits are also available for mounting the cradles in convenient orientations.

Cases

Add dust and rain protection to your RW

series mobile printer with an environmental case. By adding an extra layer of protection, your printer will be well prepared for the harshest conditions.

RJ-45 Cable

For wired communications, Zebra recommends using a serial RJ-45 cable for connection with your RW printer's RS-232C serial port. A USB to RJ-45 cable is also available for USB cabled file transfers. The RW series USB port is intended for setup and maintenance of the printer only.

RW420 4-Bay Power Station

Ideal for users who prefer to "dock and go." At the end of your shift, simply slide up to four RW 420 printers into this power station for simultaneous charging.

ZebraCare™ Depot Service Agreements

A ZebraCare Depot service agreement is a cost-effective means of planning and budgeting your annual maintenance expenditures. This back-to-factory service ensures that trained and certified Zebra technicians will bring your printer back to factory specifications every time. Zebra offers four plans to meet your specific needs.

Lithium-Ion Chargers

Fast Charger: Charges a single Zebra Li-Ion battery at a time in approximately 2–5 hours.

Quad Charger: Charges up to 4 Zebra Li-Ion batteries at a time in approximately 2–5 hours.

DC/DC vehicle charger with cigarette lighter adapter: Plug the printer into your vehicle's cigarette lighter adapter for convenient charging on the go.

Lithium-Ion Batteries

Lithium-ion (Li-Ion) cells represent the latest in mobile battery technology. They offer higher power-to-volume and power-to-weight than their nickel metal hydride and nickel cadmium counterparts. Order spare Li-Ion batteries for your RW series printer to guarantee you'll always be charged up and ready to go!

Mobile Media

Zebra provides both in-stock and custom-made receipt paper, labels, and tags specifically engineered to ensure maximum performance in Zebra printers. Custom options include watermarks, preprinted logos or terms and conditions.

Applications

ROUTE ACCOUNTING/FIELD SERVICE

Delivery Verification Slips

Use an RW series printer at the point of transaction to print a delivery receipt that confirms the actual quantities that transferred possession.

Invoices

Take days off your billing cycle! Using mobile computers and printers to issue invoices at the time of delivery accelerates the payment process, eliminating the need for manual data entry and billing in the office.

Service Estimates

Offer customers documented information regarding the estimate that was quoted. This estimate is entered into the system in real time and can be easily accessed when the customer calls in using the contact information and estimate number that is indicated on the printout.

RETAIL

Mobile Point of Sale/Queue Busting

Watch sales and satisfaction improve when you offer mobile point-of-sale service for line- or queue-busting, featuring Zebra printers with integrated card readers and wireless network connectivity.

TRANSPORTATION

Ticketing/Passenger Information

Print tickets or passenger information aboard buses, trains, or boats for an efficient way of reducing lines and increasing customer satisfaction.

PUBLIC SAFETY/ LAW ENFORCEMENT

Citations

Improve safety, enforceability, and efficiency with electronic citation systems that are easy to use and tough to beat.

Zebra RW™ Series

With optional magnetic stripe and EMV™-certified smart card readers, the RW 220 or RW 420 can simplify transaction processing in real time.
