

## ASPIRE

**ASPIRE** is the latest SPANTECH product, setting new standards in lightweight construction. The high quality aluminum frame with extra strong profiles allows a snow load of up to 1,21 kN/m<sup>2</sup> in the practical 5,0 m bay system. In addition, we can realize eave heights up to 6,0 m for this building.

**ASPIRE** is available as standard with spans of 12,5 up to 25,0 m. The structure can be equipped with practical accessories, from simple sliding gates up to the electrically operated sectional door, there are countless ways to customize the hall to the individual needs of your business.

**ASPIRE** is also available as a insulated building with roof and sidewall cladding in trapezoidal sheet or sandwich panels.
