*Only on vehicles with gross vehicle weight under 7,5t

TOW HOOK FOR Z45/75

On the Z45/75 range it is often possible to install a tow hook. For this to be possible it is required that the mounting kit used to install the lift on the vehicle chassis has a valid tow hook approval and that the mounting instructions followed. Please refer to the latest version of this document to check whether the model you are interested in is approved. Approved kits are marked with a tow hook symbol. The weight of the trailer that is allowed may depend on the positioning of the tow hook.

The tow hook is delivered with a 50 mm ball as standard. However, it is possible to order a Triplex add-on coupling. Article number 22683TL.

BUILT TO PERFORM

Hiab is the world's leading provider of on-road load handling equipment, intelligent services, smart and connected solutions. Hiab's class-leading load handling equipment includes HIAB, EFFER and ARGOS loader cranes, LOGLIFT and JONSERED forestry and recycling cranes, MOFFETT and PRINCETON truck mounted forklifts, MULTILIFT skiploaders and hooklifts, and tail lifts under the ZEPRO, DEL, and WALTCO brands. As the industry pioneer and with a proud 75 year history, Hiab is committed to be the preferred partner and solution provider to its customers and shape the future of intelligent load handling.
