**6030**

## ***MULTI-FUNCTION GRAPE HARVESTER***

The new Oxbo 6030 multi-function grape harvester brings powerful performance, tight turning, and flexible operation to the vineyard market. With the 6030, you have the choice of removing the picking unit and using the power unit to spray or perform other vineyard tasks or using it as a dedicated harvester—whichever best fits your business needs. The operator is always positioned over the top of the vines for the best visibility and the harvester was designed to deliver the highest quality grapes.

With a powerful ground drive system, road speeds of over 20mph, and integrated technology, the 6030 was designed to deliver efficiency in the vineyard.

## UNIQUE FEATURES

- A** Independent power unit with removable picking unit
- B** Designed for performance and stability in challenging ground conditions
- C** Tight turning radius- compatible with 18 foot headlands
- D** Center mounted cab for increased driver visibility
- E** Integrated technology and easy to use diagnostics
- F** Designed and manufactured in the USA

Headland

## NEW OXBO 6030

### ✓ HARVESTING UNIT

**High fruit retention** catching system

**High capacity** bucket conveyance

**Customizable discharge options**- bin(s) and/or side discharge/over-the-row conveyor

### ✓ CLEANING OPTIONS

**Standard cleaning**- Oxbo's three fan system has proven most effective at removing MOG

**PremiumSort\*** cleaning- delivers the highest quality fruit, with onboard destemming and sorting

### ✓ INTEGRATED TECHNOLOGY

**FleetCommand**- gives machine owners and managers remote access to near real-time harvester data

**YieldTracker\***- allows customers to produce yield maps to gain insight on yield distribution throughout the vineyard

\*Optional

## ✓ **POWERFUL GROUND DRIVE SYSTEM**

The 6030 features a powerful ground drive system with built in traction control which was designed to handle the challenging ground conditions and steep terrain found in many vineyards. The 6030 features 26-inches of side to side leveling giving it smooth performance, even in side hills or terraced vineyards. With a maximum road speed of over 20mph, the 6030 can quickly move between blocks, minimizing the time spent in transport.

## ✓ **CENTER MOUNTED CAB**

The center mounted cab on the Oxbo 6030 gives the operator a clear view over the top of the vines. Easy to use, bi-lingual controls with built-in diagnostics and an enhanced joystick make the 6030 simple to operate.

## ✓ **FULL LED LIGHT PACKAGE**

Oxbo understands the challenges of harvesting grapes. The new 6030 features powerful LED lights positioned across the power unit and the harvester unit to deliver unsurpassed visibility in night vineyard operations.

## ✓ **LARGE PICKING TUNNEL**

The 6030 features the industry's widest picking tunnel. The 30-inch tunnel allows the 6030 to accommodate the widest range of trellis systems. From VSP to a variety of cross arms, the picking tunnel delivers flexibility across different vineyard set ups.

## MEASUREMENTS

	6030 (with picking unit)	
<b>Dimensions</b>		
Length	18ft 5in	5.61m
Width	10ft	3.05m
Tunnel width	2ft 6in	0.76m
Minimum height	12ft 6in	3.81m
Lift	26in	0.66m
Weight	24,600lbs	11,158kg
<b>Tires</b>		
Front tire size	440/65R24	
Rear tire size	19.5-24	
Optional rear tires	N/A	
<b>Engine</b>		
Engine	CAT® turbo charged, Tier IVF	
<b>Other Specifications</b>		
Transmission	Danfoss H1 tandem	
Final drives	Fairfield	
Hydraulics	Danfoss 147cc pump
