# RS Pro Strain Relief Boot for use with Automotive Plug

## Product Details

### Single Plug and Socket

Suitable for 12 to 24V d.c. car, boat and caravan electrical systems, these universal plugs and sockets provide quality connections for any number of uses to power portable equipment. Plugs are 8A or 16A rated and fit DIN ISO 4165 socket outlets. The red adaptor allows the plug to fit car cigar lighter sockets.

Fused (standard car fuse) and unfused types available

Screw termination

Integral cable clamp & separate strain relief boot

Cable mount and panel mount socket (DIN ISO 4165) with 6.3×0.8 tab connections (panel mount dimensions 18.5mm dia.)

### Note

Similar in concept to an automotive cigar lighter, the DIN 4165 connector is shorter and smaller than the Standard Cigarette Lighter Socket normally found in cars.

## Specifications:

Accessory Type	Strain Relief Boot
For Use With	Automotive Plug
