Profitez de  
l'alignement  
exceptionnel de la  
simplicité et du style !

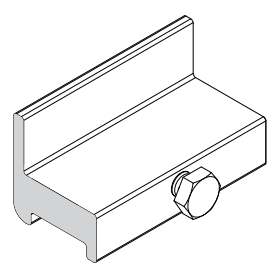

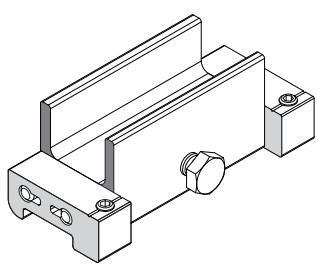

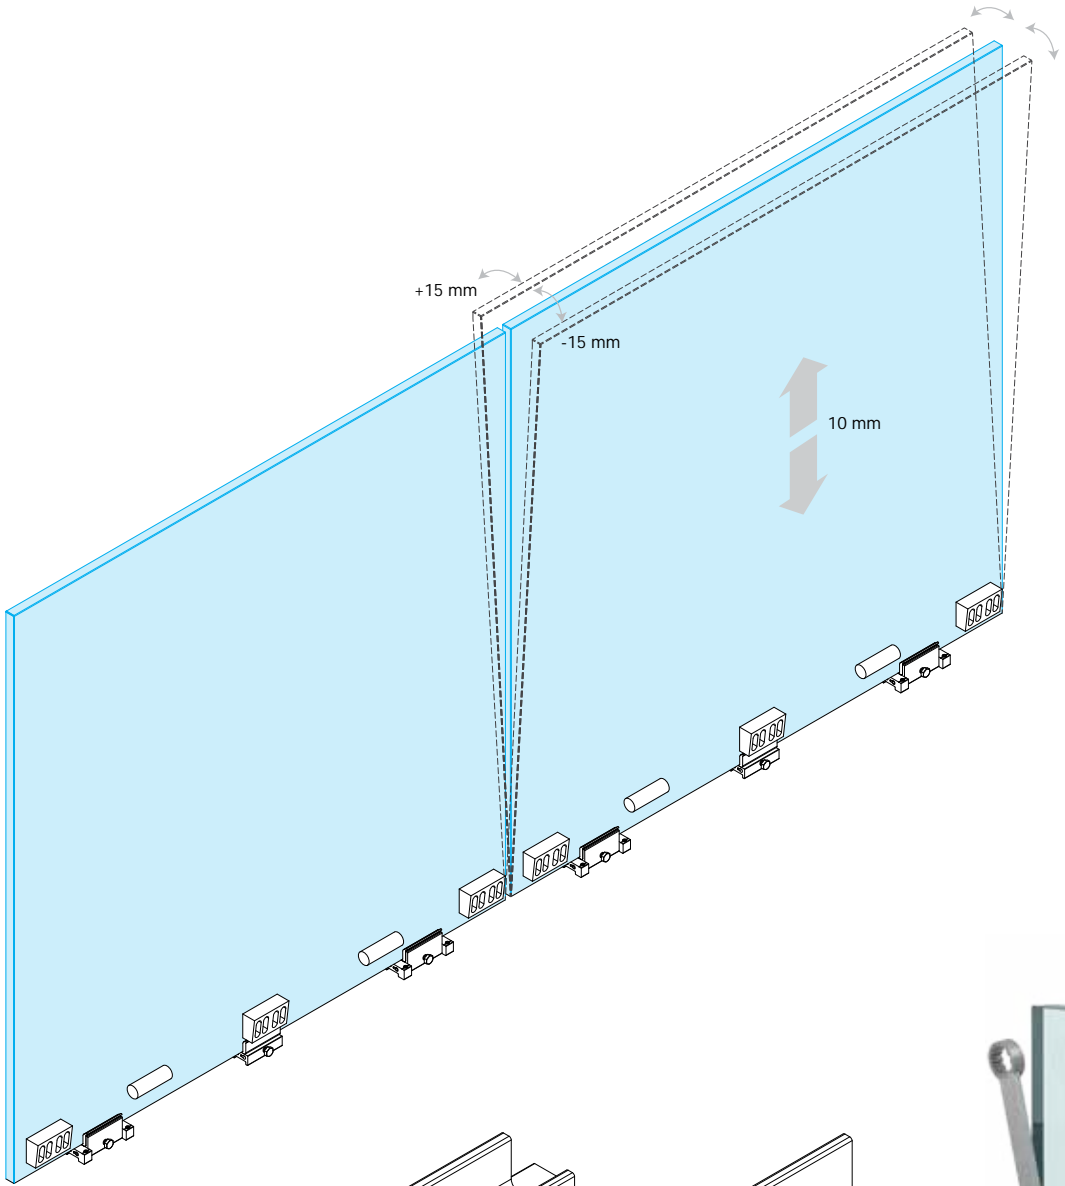

La nouvelle édition du profilé L TOP MOUNT, est un système robuste qui combine les avantages de la sécurité et de la transparence avec une installation et une fonctionnalité facile.

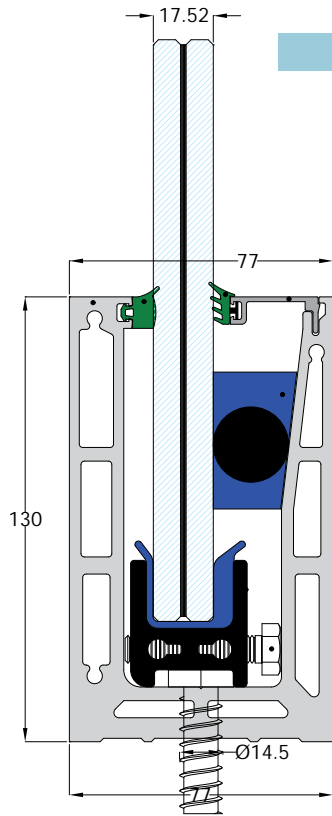

Il est conçu pour faire face à des charges supérieures à 3 KN/m, répondant aux exigences de la réglementation dans les habitations, les bureaux, les stades, les centres commerciaux et les espaces publics à fort trafic.

La rétention du panneau de verre est obtenue en utilisant des chariots internes spéciaux ayant le potentiel de déplacer et d'aligner les panneaux de verre avec une capacité d'inclinaison de  $\pm 1^\circ$  (c'est-à-dire  $\pm 15$  mm sur la surface supérieure du verre) tandis que le joint spécial assure l'équilibre lorsque mise en place des panneaux de verre.

A low-angle photograph of a modern building facade. The building features a dark, textured facade on the left and a lighter, blue-grey facade on the right. The right side has several balconies with glass railings and large windows. The sky is a clear blue with some light clouds. A semi-transparent teal banner is overlaid across the middle of the image, containing the text 'L·line Fixation Facade'.
