

## Tent Industry

The **First Choice** Globally of All Industrial Fabric Welding Solutions

### Miller Weldmaster – Heat-Sealing Equipment For the Production of Tents

Miller Weldmaster manufactures a variety of equipment for the production of tents. Miller will also design a completely automated machine to fit your specific tent production needs. Miller Weldmaster will provide a complete tent welding solution for the tent manufacturers. Please visit [www.millervideos.com](http://www.millervideos.com) to see these machines running.

## T-300 Extreme Flex™

### T-300 Extreme Flex™ For the Manufacturing of Tents

The T-300 Extreme Flex™ is designed to weld all the seams needed to produce your tents!

The T-300 Extreme Flex™ will allow you to seam your panels together, hem the ends, and produce keder for tension sidewalls. The T-300 Extreme Flex™ has the capability of producing a complete tent from start to finish.

#### T-300 Extreme Flex™ Seal Types:

Pole Pocket

Rope and Hem

Overlap

Keder

Hem

## 112 Extreme™

Available from 3 to 20m long!

### 112 Extreme™ For the Manufacturing of Tents

The 112 Extreme™ is designed to weld long straight seams faster than any other technology in the industry!

The 112 Extreme™ is the next generation of the popular 112 Cross Seamer. The 112 Extreme™ is the fastest seaming technology in the industry, able to weld long straight seams up to 55 ft./min. (17 m/min.) The 112 Extreme™ can not only seam your panels together but also weld keder to those panels. The 112 Extreme™ is also equipped with a laser-guided cutter to cut panels.

#### 112 Extreme™ Seal Types:

Pole Pocket

Rope and Hem

Overlap

Keder

Hem

## T-500™

### T-500 For the Manufacturing of Tents

The T-500 is designed to weld all the seams needed to produce your tents!

The T-500 will allow you to seam your panels together, hem the ends, and produce keder for tension sidewalls. The T-500 has the capability of producing a complete tent from start to finish.

#### T-500 Seal Types:

Pole Pocket

Rope and Hem

Overlap

Keder

Now with Automatic Folding Pocket Option!

### Impulse Extreme™

For the manufacturing of tents

The Impulse Extreme™ is designed to easily weld hems, pockets and overlaps for your tent applications!

The Impulse Extreme™ incorporates an effective thermo-impulse sealing technology with precision controlled welding parameters that will create great looking seams.

- Designed to be used with an acrylic welding tape
- Easy one man operation
- Can weld PVC, PE and Acrylic fabrics

## Custom Equipment for High Production

### M-100 Tent with Keder

For the High Production Tent Maker

M-100 Tent with Keder is a completely automated tent side wall production system.

The M-100 is a completely automated production process. From overlaps and hems to grommets and keder, the M-100 will do all welding in one pass through the machine. The M-100 is also able to cut your panels to specified lengths. The M-100 will greatly increase production while decreasing labor costs.
