Dry Ice Blasting Unit

ASCOJET 1701

complete (fully adjustable)

part no. 901023

The ASCOJET 1701 is a compact, mobile dry ice blasting unit featuring a handy one hose system which has been specially developed to maintain efficient cleaning with contaminants which are harder to remove.

This powerful unit is suitable for industrial end users like foundries, tyre manufacturers, food industry and printing industry who require high performance and easy handling.

Powerful and handy blasting gun:

Thanks to a quick connect coupling the gun can be attached to the blasting unit Increased security thanks to the locking pin, which makes a sudden opening of the locking mechanism of the nozzle impossible.

The ergonomic gun handle ensures very easy handling and comfortable operation when blasting over longer periods. The new developed safety button is ideal for left and right-hander.

An quick exchange system allows nozzles to be changed within seconds without any tools.

Specifications

Material:

Dimensions $(L \times W \times H)$ incl. wheels and handle: Weight empty: Content of pellet hopper Blasting pressure: Dry ice consumption: Max. power consumption: Voltage:

Connection:

frame and cover sheets made of powdercoated steel

752 x 608 x 1'103mm(30 x 24 x 44 in) approx. 84 kg (185.2 lb) approx. 23 kg (50.7 lb) 0-10bar (0-145psi) (adjustable) 25-80 kg/h (55.1-176.4 lb/h)(stepless) 600W (0.80HP) nominal 230 V, 50/60 Hz, 1 Ph (other voltages on request) Input: 3/4" BSP

ASCOJET 1701: Special features

Powerful and handy blasting gun with quick connect coupling

Lightweight and compact

Distributor unit for pulsation-free blasting

Highly manoeuvrable

Quick connect coupling at blasting hose

Insulated pellet hopper with 23 kg (50.7 lb) capacity

Integrated holding device for hose

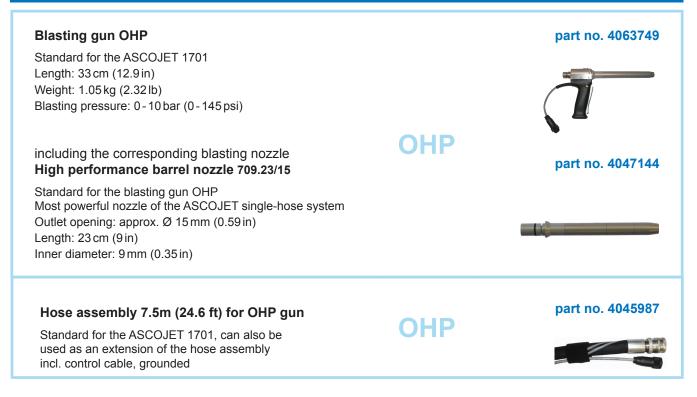

Box for gun, nozzles and tools

Control panel for easy overview

Standardly included in the delivery of ASCOJET 1701:

Protective hood for ASCOJET 1701/1708/2008

The newly developed hood for our blasting equipment protects the control elements from contamination. The transparent cover can be opened for easy view on and access to the operation elements. For cleaning the hood can easily be taken off.
