STULZ Germany - Business Areas

Since its founding in 1947, STULZ has specialised in areas requiring technological expertise and entrepreneurial flexibility. We help to maintain standards and create optimal operating conditions in rooms for people and plant.

Precision Air Condition Units

As an air conditioning specialist STULZ offers a wide range of customer solutions for the high-tech sector IT, telecommunications and automation. Development and manufacture of precision air conditioning and chiller systems, STULZ also manufactures moreover equipment for control cabinets and for industrial cooling.

Comfort A/C and Humidification

The wide range of products distributed stretches from portable air conditioners to complex VRF multisplit systems. In Germany STULZ is the sole distributor for air conditioning units of MITSUBISHI HEAVY INDUSTRIES and HAIER and humidifiers of CAREL.

Systems Engineering

Ventilation and air conditioning system engineering for high-tech and comfort applications. From the analysis of individual requirements through concept preparation and system planning to installation and commissioning.

Customer Service

STULZ customer service ensures that ventilation and precision air conditioning systems work reliably 365 days a year. STULZ furthermore provides a complete modular range of services for all building-related aspects.

The background of the slide is a close-up photograph of several interlocking metal gears. The gears are rendered in a warm, golden-yellow color, with a soft, slightly blurred effect. One gear in the lower right quadrant has the word "STULZ" embossed on its surface. The overall composition is centered and conveys a sense of precision and mechanical engineering.
