SCOUTusb - SCOUTcombo

The Daxten SCOUTusb 1.1 and SCOUTusb 2.0 is a 2 or 4 port KVM switch with an integrated 2 port USB Hub to allow shareing of USB devices such as a scanner, digital camera, drives etc. For use with multimedia tools we would recommend the SCOUTusb 2.0. The transfer speed for USB 1.1 is 12 Mbit/s and for USB 2.0 it is 480 Mbis/s. Most peripheral devices support USB 2.0 (Also known as high speed USB).

The Daxten SCOUTcombo 1.1 and SCOUTcombo 2.0 is a 2 or 4 port KVM Switch for PS/2 and USB platforms with an integrated USB 1.1 or 2.0 Hub to allow sharing of USB devices such as a computer, digital camera, drives etc.
